Fax for Lynn Olson

Lynn -

1. There'll be breakfast sessions as follows:

Monday: With a couple of the legislators involved (Sen Reichgott, Reps Kelso and Weaver); Dan Loritz; maybe John Maas.

Tuesday: With two of the charter proposals still in the pipeline. Mounds View and the Deaf School. And with Bob Jibben, with the Minneapolis schools who supervises the contract alternative schools there. Also, Ruth Anne Olson, who was the consultant/evaluator for the St. Paul schools on the problem at Jefferson (out of which the City Academy has evolved).

Ask me about locations. Will you be at the Sheraton-Midway? Elsewhere?

2. If you want to talk with the group that has the NASDC grant Wayne Jennings is 644-2805; John Carns is 334-8532; Joe you have.
3. It might be worth trying Curt Johnson in the governor's office; either to talk to Curt or to the governor. I've told Curt about your visit. He's at 296-8983. Better: That will get you Leona, a real person who can get you through to him. He knows quite a bit about choice and its new supply-side ideas.
4. The word from California is that Gov. Wilson has said he will sign Hart's bill.

You may have noticed the National Journal piece (9-12 issue) missed the CA action.

5. The newest development here involves the superintendents' association saying the finance system is at a dead-end. Here's the S/Trib article, and a related letter from Astrup. I can leave a copy of the report for you if you should want it -- for yourself or to take back to someone who follows the money side more closely.
6. Can you give me a call Sunday night when you're in, just to double-check arrangements for breakfast? 224-9703.

Ted
